Information letter number MA-IL-6-0001

Paul Souza
Product application specialist
Tel. 724-743-2816 ext. 208
Paul.souza@auma-usa.com

Re: Information letters

AUMA USA will be introducing product notices when necessary via email. This *INFORMATION LETTER* will be provided as an attachment to the email addresses that presently receive AUMA representative information and will also be maintained on the representative page portal of the auma-usa .com website.

The information letters will cover a wide range of subjects and are intended to help AUMA communicate with you in a timely fashion.

During our rollout we may be sending information letters which may seem to some as out of date but we want to make sure everyone has the most current information regarding certain matters.

Additionally the information letters may contain, at times, product sensitive material that we trust will be kept in strict confidence.

The Information Letter portal will be broken down as follows:

- 1-Actuators
- 2-Actuators with Integral controls
- 3-Actuator/Gear box
- 4-Controls
- 5-Gear boxes
- 6-General
- 7-Output drives
- 8-SEVEN
- 9-AUMA Industry and Marine

Should you have any questions, please do not hesitate to contact your Regional Sales Manager or Inside Sales Contact.
